*You must have Kryptonite to get this far so quickly! Superman tries to use some word problems...*

1. George took eighteen stickers to school, to give them out to his six best friends. How many stickers did his best friends each get?
2. Jasmine buys 48 ice lollies for her party. She has 8 carrier bags and needs to put an equal amount in each bag. How many can she put in each bag?
3. Sarah has 40 pencils. She shares them equally between her 8 friends. How many pencils will each of her friends get?
4. There were twenty four pens in a pot and eight children to share them. How many did they get each?
5. There was 56ml of medicine in a bottle. One teaspoon can hold 8ml. How many teaspoons of medicine can you pour out of the bottle?
